SKILLS

PROGRAMMING

Python | JavaScript | React | SQL
React | Node.Js | Tailwind | HTML
CSS | Next.Js | C# | Java | OOP
Django | Git | Front-End | Backend
UI/UX | CI/CD | Machine Learning
Concepts
APIs

EDUCATION

Arizona State University

BA IN SOFTWARE ENGINEERING

Minor: Psychology
May 2022 | (Online) GPA: 3.75 / 4.0

Joliet Junior College

Assoc. ARTS & SCIENCE

Focus: Computer Science
December 2019 | Joliet, IL GPA: 3.85/ 4.0

COURSEWORK

UNDERGRADUATE

Java Programming

Programming in C

Object Oriented Programming

Data Structures & Algorithms

Discrete Mathematics

Computer Security

PROFESSIONAL

Strategic planning | Time Management |
Critical Thinking | Goal oriented | Positive
Mindset | Self Motivated

LANGUAGES

English | Gujarati | Hindi |
Punjabi | Urdu
- All Professional level fluency

PROJECTS

Algorithms Visualizer| 2022

- A web-based platform that demonstrates the thought process of pathfinding algorithms in a more creative and interactive manner.
- The website was developed and designed using HTML, CSS, Node.JS, JavaScript, and React.

Portfolio| 2022

- An app and web platform that is designed in a way that users can update resume information constantly according to their new experiences in the field, skills, or updated contact information.
- The website is oriented mainly towards front development in terms of a friendly and stylish UI. The platform was created using Node.JS, HTML, Tailwind, React, and JavaScript.

e-Commerce| 2021

- Developed and designed an e-commerce-like auction site that allowed users to post auction listings, place bids on listings, add comments, save certain items, and create a personal watchlist.
- The site was developed using Python, HTML, CSS, JavaScript, and the Django admin interface.

Mail | 2021

- Developed and designed a front-end for an email client that makes API calls to send and receive emails.
